

# **blok**

by **store**<sup>®</sup>

The BLOK shelving range is as versatile and functional as it is beautiful.

The components of this modular system are made from solid Baltic Pine from Finland. It is hand sanded to a smooth mirror finish and lacquered to preserve the timber's natural colour.

BLOK can be combined in limitless configurations to meet your unique storage needs. Use BLOK to create a customised wall of bookshelves, an efficient home office or an attractive entertainment centre in your home – without the customised cost. A custom solution that you can take home today!

### **Built for strength**

BLOK is incredibly strong. The solid steel rails embedded in each shelf rest on steel pins for solid steel-on-steel support and strength. BLOK comes with a 15 year structural guarantee.

### **Designed for change**

With 4 heights, 4 widths and 2 depths, and shelves that are adjustable every 50mm, BLOK is highly versatile. The custom solution that you take home today can grow and adapt with your changing needs. We like it so much we used it ourselves to fit out our stores!

### **Naturally good looking**

In the cold climate of Finland the pine trees grow slower yielding a strong dense wood with a beautiful grain.

## **So Design Away!**

### **Product range**

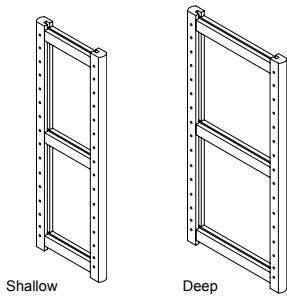

- 4 upright heights - 890mm, 1270mm, 1700mm and 2080mm.
- 2 depths - 300mm and 400mm.
- Infill panels that prevent products falling off the ends of the shelves in the same heights and depths listed above.
- Shelves available in 4 widths & 2 depths:
  - Widths - 462mm, 766mm, 970mm and 1174mm.
  - Depths - 270mm and 370mm.

Plus there is a huge range of accessories including cross braces, drawers, desktops and legs for you to choose from at STORE.

### **Assembly is as easy as 1, 2, 3!**

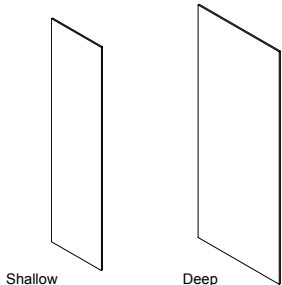

- 1** Stand a pair of uprights side by side. Insert shelf pins at the desired shelf heights, eg. top, middle and bottom. Insert all 3 shelves making sure they are resting on the shelf pins.
- 2** Level and square your BLOK shelving unit - make sure the cross brace is at the same height from the bottom on each upright. Use a pencil to mark the bottom and fasten to the upright.
- 3** Shelves should always be fitted with the punch marks facing downwards. The shelves are marked with an arrow facing the front and top. This ensures steel-on-steel support so the shelf can be loaded to its maximum capacity.

Should you require assistance with assembly, please see a STORE team member or call Aussemble on 1300 799 289.
